

A Guidebook to the Sea Slug species of Koh Tao and nearby Islands

Dear Backers,

▶ Thanks again for supporting project "A Guidebook to the Sea Slug species! of Koh Tao and nearby Islands". As the project creator is now in Koh Tao and busy with his continuous research, we here send his message on behalf of him :

*"At just 7 days left and almost HK\$27,000 raised in less than 7 weeks, all I can say is Thank YOU so much for your support, we are closing in rapidly but I am trying to my best to do everything possible. The maps for the species are well underway and the illustrations and photographs look stunning. Right now I am back at the island collecting more information, both for the book, and for my own research with the PhD. Even though we have regular rains during much of the week, we have observed a bit of coral bleaching this year, however in the past 2 months alone, we have found another 4 species to add to the book! Looking forward to seeing how the project proceeds!
Thank you all very much again.*

*Project Creator,
Rahul Mehrotra"*

▶ We have 7 days to go for his project fund pledging and we hope you can share your words with your friends and colleagues who have the same generosity to support this young researcher.

▶ Please simply share this link to them via email or Facebook!
